

Olympic Games

Due to the COVID pandemic the Olympic Games couldn't go ahead in 2020 and were held this year in 2021 in Tokyo Japan. We followed the games with great interest.

While following these events and celebrating the success of our NZ sportspeople. We held our very own Olympic events here at Manu. Our games provided our children opportunities to try different sports like weight lifting, boxing, long jump, hurdles, sprints, high jump and football skills. With our children learning to grow and develop skills both physical and mental. Some of these were: strength, speed, coordination, patience, determination, and resilience, as well as just having fun. It was great to see our children revisiting many of these events to practice their newly acquired skills.
