

## We learnt about Surf lifesaving!

On Wednesday we were so lucky to have some “real life” Surf lifeguards come and visit us. They were so friendly and shared some very important information about staying safe at the beach.

They answered our questions about their boats and surf skis, how fast they can swim and the awesome beach buggies they get to drive around in. We talked about swimming between the flags, putting our arm up if we need help and they listened to our beach stories.

It was so neat when they taught us the little nipper surf lifeguard games that they play at training. We were super-fast and had lots of fun racing and saving each other throughout the games. It is great being able to have community involvement in our learning as it enriches our knowledge and our broader sense of understanding and belonging in our community.
